1 START PLANNING EARLY

Create a moving checklist, decide on a moving date, and start packing non-essential items well in advance to avoid a last-minute rush.

2 DECLUTTER BEFORE PACKING

Donate, sell or dispose of any items that you don't want to take with you to your new home. This will make packing easier and could even save you money on moving costs.

3 LABEL BOXES CLEARLY

Make sure to label all your boxes clearly with the contents and which room they belong in. This will help the movers place boxes in the correct rooms in your new home, making the unpacking process much easier. You can also use color-coded labels for each room to make the process even simpler.

4 HIRE PRIORITY ONE AZ

PRIORITY ONE

Moving made easy when you're the priority

We are here to give you peace of mind! Moving is stressful and we get you! It's important to communicate clearly about your moving needs, timeline, and any special requirements. Be sure to ask any questions you may have and provide any relevant information to ensure a smooth moving experience. We're HAPPY to help!
